PROJECTS

Online Food Ordering System

October 2024 – November 2024

Tech Stack: React.js, Node.js, MongoDB

- Developed a dynamic food ordering platform with customer authentication and restaurant management features.
- Implemented a seamless ordering process for customers and an efficient order management system for restaurants.
- Integrated a user-friendly interface for better accessibility and smooth navigation.

Hotel Management System

May 2024 – June 2024

Tech Stack: HTML, CSS, JavaScript, React

- Developed a hotel booking platform with features like room selection and reservation tracking.
- Designed a clean and interactive UI for an easy and hassle-free booking experience.
- Ensured smooth functionality and responsiveness across different screen sizes for better usability.
- Added basic validation for user inputs to improve the booking process.

Amazon Clone

March 2023 – April 2023

Tech Stack: HTML, CSS, JavaScript

- Built a responsive e-commerce website with product listings, shopping cart functionality, and an intuitive user interface.
- Designed a user-friendly layout to enhance navigation and the overall shopping experience.
- Optimized page structure and performance for faster load times.
